

Australian Shepherds

In 1994 the first breed video of the then newly inducted breed, the Australian Shepherd was created.

Many of you have asked, “Who are these dogs?” We hope you enjoy looking at our past and the excellence demonstrated with these great dogs from our past.

Work in Progress!

Based on the desire to furnish the identity of the dogs, we are posting this document, but it is not complete. We are working on getting all dogs credited and all those in attendance cited. If you know the name of a dog or attendee, please contact Regi Bryant (Facebook private message). The document will be updated until complete.

If there is an asterisk (*) after a dog's name, it means that the identification has not been confirmed.
